

CROFTS & ASSINDER

EST. 1875

STYLE GUIDE 2023

UNIQUELY BRITISH

You could spend a lifetime discovering unique British buildings, furniture and landmarks; we have. From the very beginning Crofts & Assinder has specialised in the design and manufacture of extraordinary cabinet handles and luxury fittings. In our 147 year history we have had the privilege of dressing furniture at London's Ritz and Waldorf hotels, the White House in Washington, Parliament House in Buenos Aires and ships of the Cunard and White Star Line.

Established in 1875 George Crofts and Frederick Assinder commenced trading as brass founders at the heart of British industry in Birmingham, England. To this day, Crofts & Assinder has stood the test of time and remains in the same hands of the families that created the company at the outset. We endeavour to make the ordinary extraordinary, combining a unique blend of our British heritage with timeless design and quality.

PRESENTS

THE COLLECTION

Years in the making, our new Collection range brings exquisite design and meticulous engineering together with practicality, to present an incredible offering, available to everyone.

Simple. Elegant. Luxury.

Crofts & Assinder's take on the wonderful world of Scandinavian design. The tapered legs on this bewitching handle look effortlessly chic and ensure that the range stands out due to the inherent beauty found in the finer details.

Available in Brushed Satin Brass, Chrome and Matt Black.

13. STOCKHOLM

HN-M-4246-160	Pull	160	214	21	34

Timeless charm emanates from this versatile range. The chunky bar handle and knob combination, with its smooth curvature, is well-suited to any interior – whether it's traditional or modern.

Available in American Bronze, American Copper, Brushed Satin Brass & Chrome.

A decagonal objet d'art, the Leamington presents a fresh look at the art-deco genre. With the classy and stylistic flair that this period was known for, the broad face and faceted edges combine to create an exquisite and enduring range.

Available in Brushed Satin Brass & Chrome.

Inspired by the Cloud Gate sculpture, the Chicago handle is flowing, smooth and sleek, creating an infinite liquid effect, which is both alluring and tactile.

Available in Brushed Chrome, Brushed Satin Nickel & Chrome.

Chicago in Brushed Chrome.

Traditional with a contemporary twist, the Hamilton range looks at home in any setting.

The linear detailing and stepped edge come together to create a true modern classic.

Available in American Bronze, American Copper, Brushed Satin Brass, Brushed Satin Nickel & Polished Nickel.

FREQUENTLY ASKED QUESTIONS

How do I order?

Please phone, fax or e-mail our Birmingham Headquarters:

t +44 (0) 121 622 1074

f +44 (0) 121 622 5718

e general@crofts.co.uk

What are our hours of business?

Monday – Thursday 08:00 – 16:30

Friday 08:15 – 12:30

How do we interpret your dimensional information?

The majority of our handles are in metric sizes, with dimensions given in millimetres, however we do offer some handles in imperial sizes for our overseas markets with centre fixing dimensions of 3", 8", 12" and 18". Our double fixing handles start from centres of 32mm with additional incremental sizes of 32mm being added where applicable. The majority of our products are tapped with M4 threads with a minimum depth of 4mm. A few of our larger handles may be tapped with M6 threads. Please ask our Sales Team for confirmation when ordering. Dimensions of cast iron and ceramic hardware may vary slightly due to the manufacturing process.

How are your products packed?

We aim to supply the majority of our handles packed in poly-bags complete with an M4 x 25mm screw and an M4 x 45mm snap off screw per fixing hole. Please note not all handles are packed to this specification. Box quantities range from 10 – 50 pieces depending upon the size of the product. For non-standard packaging and alternative screw lengths, please contact our Sales Team on + 44 (0) 121 622 1074.

How do we fit your products?

Please hand-tighten the products using the screws provided and avoid using power tools for installation.

Product Care Instructions

To prolong the life of this product we recommend cleaning when required using lukewarm water on a damp, well wrung-out lint free cloth. Also, the use of a soft-bristled toothbrush can be used for the removal of dirt trapped in the knurling or grooves. Once clean, ensure to thoroughly dry with a soft cloth, paying particular attention to the base of the stem of the product. A light coating of natural wax will help seal any chips or scratches.

We strongly advise never to use commercial chemical or abrasive cleaning products on any Crofts & Assinder products, including antibacterial cleaners. These will remove the protective coating and the product may become damaged, possibly changing the appearance as a result. Also, little chips or scratches in the lacquer will allow the air to tarnish the metal underneath over time. So particular care is required by following these instructions, otherwise the 12-month warranty may become invalid.

How can I hear about new developments in your Company?

We have a team of Regional Sales Managers who regularly make personal visits. Please call the Sales Office on + 44 (0) 121 622 1074 to find out your contact.

What are your lead times?

Lead times vary from region to region and by product to product. Please contact our Sales Team on + 44 (0) 121 622 1074 to verify stock availability and lead times.

Can we reproduce C&A product images?

All copyright and intellectual property rights are the property of Crofts & Assinder Ltd. No persons can reproduce any part of this catalogue by any means, electronic or mechanical without prior written permission from the Company.

What are your Terms & Conditions?

Our Terms and Conditions may be obtained from our Sales Team and they accompany all account application forms.

Error & Omissions Excepted

Due to our policy of continued product development, we reserve the right to alter materials and specifications without prior notice. Please contact our Sales Team for further information.

Although every care has been taken to ensure the accuracy of the information in this catalogue, we cannot accept responsibility for omissions or inaccuracies.

Non Standard Finishes

Standard finishes are shown against each product displayed.

In cases where non standard finishes are requested, MOQ's and longer lead times may apply as these will be produced on a bespoke basis. Due to the nature of our products, many of which are hand finished, there may be some variations in finish from batch to batch.

FINISHES

Colour Reproduction

Due to photographic and printing processes some colours may not be a true representation of the product. Please see actual sample for colour.

Changes & Modifications

From time to time, as part of our continual product improvement program, Crofts & Assinder may need to modify tooling or design aspects. During this process small changes to the product may be applied. Crofts & Assinder reserves the right to make these changes without prior notification.

Intellectual Property

We protect and defend our intellectual property rights globally, particularly by means of Design Patents in the USA and Registered Designs in the UK & Europe.

Crofts & Assinder is an active member of ACID, a hard hitting action group committed to combating copyright theft. Please visit www.acid.co.uk for more details.
