**THE COOL
SIDE OF YOU**

Retro
COLLECTION

Less complicated. More pleasant.

We understand you. You want to live a quality life, have time for yourself and the things that make you happy. Therefore, you also expect a good user experience when doing household chores such as cooking, doing laundry or caring for your home and family.

We are developing practical solutions that make your everyday life less complicated and more pleasant. We know how to take care of important details. Our appliances are practical and at the same time useful. But most of all, they are very human. They bring you comfortable quality, surprise you with original solutions and create more cosiness at home. They are nicely designed, durable and reliable. Every single day, they offer you a simple and energy-efficient way to the desired results.

In a busy everyday schedule, with too many things to do and not enough time, Gorenje appliances enable you to live your life according to your values – to live well, be satisfied, and stay healthy.

Welcome to Gorenje. Welcome to life, beautiful and free.

Life Simplified

THE COOL SIDE OF YOU

Vintage design, with a long list of colours to choose from, makes this refrigerator one of the highlights of your home. As a design item you can easily place it anywhere you like. Perhaps in your romantic kitchen, in your chic urban nest, even your funky loft. Each Retro refrigerator is striking, boasts optimal storage configurations, and all the features one would expect from a high-end appliance. Whatever the colour, these modern icons are an instant hit wherever they pop up.

You can choose your iconic refrigerator from a range of romantic, chic and funky colours.

IonAir with MultiFlow 360°

Ideal microclimate on every shelf

Advanced technology in the refrigerators emulates the natural process of ionization to keep the food fresh longer. Negatively charged ions generated by the appliance continuously refresh the air to mimic a natural microclimate, thus creating the ideal environment for fresh food. The MultiFlow 360° ventilation system evenly distributes the ionized air through 14 ventilation slots to maintain constant temperature on every shelf.

IonAir with DynamiCooling

Even temperature distribution in the refrigerator compartment

Advanced fan system with dynamic cooling evenly distributes the ionized air and equalizes the temperature throughout the entire refrigerator. Air enriched with extra negative ions mimics the natural microclimate that keeps the food fresh for longer. Moreover, any type of food can be placed on any shelf in the fridge as there are no temperature differences.

NoFrost Plus

No more tedious defrosting

One of the best cooling systems in the market, installed in the freezer compartment, prevents the accumulation of ice and frost to keep the power consumption low, while in the refrigerator compartment, it maintains an ideal microclimate for fresh food. Circulation of ionized air prevents the food from drying out and retains its vitamins and minerals.

FrostLess

Less ice, more energy saving

Improved insulation effectively reduces the accumulation of frost on the food and ice in the appliance interior. This means less tedious defrosting and a lower electricity bill.

AdaptTech

A refrigerator that recognizes your habits

This smart system was devised to maintain the optimum temperature in the refrigerator regardless of its use. As a result, the food remains fresh and rich with vitamins as it is not exposed to thermal shocks caused by frequent opening of the refrigerator door.

Inverter Compressor

Steady, silent, and durable

InverterCompressor are more silent, have a longer useful life and they are more economical compared to those with a conventional compressor. Whenever the temperature in the fridge interior rises as a result of door opening, the inverter compressor delivers rapid and effective cooling to prevent the food from spoiling.

 **FreshZone drawer**
Fresh as if straight from nature

The drawer with the lowest temperature in the refrigerator is ideal for storing meat, fish, fruit, and vegetables. It will preserve the food's freshness, aroma, colour, and flavour for much longer.

 **ZeroZone drawer**
Fresh as if straight from the sea

The drawer with temperature around 0 °C is ideal for storing fresh or marinated meat, fish and seafood. It extends the freshness of delicate food and keeps its natural juiciness and nutrients.

 **CrispZone drawer featuring HumidityControl**
Just like garden-fresh

CrispZone is one of the largest fruit and vegetables bins in the market. Low temperature and the option to adjust the humidity extend the freshness of your produce.

 **SuperCool**
Rapid cooling after weekly shopping

The intensive cooling function drops the refrigerator temperature by nearly a half of its usual. Ideal for rapid cooling of food after major shopping trips.

XtremeFreeze drawer

Freezing in a flash

Rapid freezing at extremely low temperatures. The shock-approach preserves all nutrients and the flavour of the food.

FastFreeze

Rapid freezing

Function inside the freezer for fast freezing of food, perfect for restocking.

Top energy efficiency

All Gorenje refrigerators are highly energy-efficient. Excellent thermal insulation and door sealing and electronic or mechanical control efficiently reduce power consumption. Gorenje A+++ refrigerators verified by the Energy Saving Trust cost less than £2 to run every month, or just £3 for A++.

(Based on ORB153, RF60309, ORK193, ONRK193. Figures are based on the EU Energy Label energy consumption. Average electricity price of 13.86p/kWh. Correct as of January 2016).

MultiBox

Multi-functional, practical box

The multi-purpose bin with a cover in the refrigerator door can be used for storing cheese, onions, and other food with a pungent smell. It keeps the food fresh and protects it from drying, while the silicone cover can be used as an egg or ice tray.

SimpleSlide shelves

For both tall and short bottles

An especially practical mechanism which allows movement of shelves up and down.

LedLight

Well-arranged and efficient fridge

Power saving LED lighting fixtures the form of a strip are highly energy-efficient, have a notably longer useful life and consume less power.

XXL SpaceBox

Enough space to store a turkey

This freezer compartment drawer is the largest in the appliance and it is ideal for storing large items like a turkey, several pizzas, or even cakes.

PullOut shelves

Easy access to food

Sliding shelves for quick and easy access to food, which hold up to 22 kg of food.

EcoMode

Energy savings

In case of prolonged absence, the fridge can be set to operate in power-saving mode as the door is closed all the time.

THE CHIC SIDE OF YOU

Your life is a time with vision. You know what you're after and similarly, what you don't want. You expect a lot from yourself, so your living standards are high as well. You like perfection, flare; simply elegant lines where nothing is redundant.

You love minimalism. For you, the finest of details are the key to beautiful things beyond. Where everything is in its right place. Where your refined taste is the source of all the good things you do in life.

THE ROMANTIC SIDE OF YOU

You gather the pieces of the past, your past. Each has its own story, and they all breathe with you. You never feel lonely. You like new stories, new images, but seasoned with some sense of character. Simply romantic. Specific, select items for delicate wishes. Only the best will do for you.

You love comfort. You treat yourself to big pleasures, with pride. You know how to pamper yourself. You live your life as a lady. As a gentleman.

THE FUNKY SIDE OF YOU

When you want to look up into the sky, you're not about to let the ceiling get in your way. Imagination has immense powers. With a few sparks of it, your home becomes the ideal playground. That's when you really start to enjoy your independence. Wherever you are the sky's the limit, and everything you have is a part of you.

You love freedom. The adrenalin that comes with new sensations and experiences. The urge to learn and know takes you, drives you all over the world. Your life is a journey, and your dreams rich and vivid.
