# A New Dimension in Bedroom Design

# Introduction

Bedrooms are perhaps the most personal room in the house. We need to feel relaxed and comfortable there, and yet a bedroom can be a personal sanctuary, double as an office or a studio.

We have designed our bedrooms with this flexibility in mind. Traditional if necessary, or fashionable as to taste. Many options are available to answer the need for the flexible bedroom, from pilasters to alcoves, shaped pelmets to matching headboards.

We offer a full range of frame door options and also the fashionable feature doors with frosted glass effects.

Our bedrooms display door handles which we have carefully chosen as totally complementary to the design effect we have created.
